

Ay illuminate[®]

The background of the entire page is a photograph of a dark industrial interior, possibly a warehouse or factory, with a complex network of metal beams and trusses. Numerous handcrafted lanterns are suspended from the ceiling. These lanterns vary in shape and material, including cylindrical, rectangular, and square designs. Some are made of woven natural fibers like rattan or bamboo, while others have a more solid, textured appearance. Each lantern contains a warm, glowing light source, creating a contrast with the dark surroundings. The lighting from the lanterns casts soft glows and highlights the textures of the materials and the structural elements of the building.

CATALOGUE 2023

CONTEMPORARY DESIGNS MADE FROM NATURAL MATERIALS, LOCALLY CRAFTED

Contents

Find us on www.ayilluminate.com or send us an email at hello@ayilluminate.com.

Ay illuminate is based in the Netherlands and produces its own lighting in several countries in Europe, Asia and Africa. The designers of Ay illuminate are inspired by both nature and different cultures which is reflected in their use of organic shapes and natural (waste) materials combined with local handcraft expertise. To get inspired the design team is working together with the local handcrafters. This allows us to get to know the natural materials available and the expertise of the handcraft. It is our way to discover the best solution to catch the unique beauty of different techniques.
