Layer

The Layer Sofa is a 70's inspired design with a contemporary twist. Each element of this statement sofa is built from identical base pieces that can be assembled in a 360° modular layout. The layers are not only a prominent feature of its aesthetic, but also play a part in the functionality of this piece. Its internal elements include a 'layering' of different materials such as a combination of woods, cold foam and nosag springs that contribute to the Layer Sofa's strength and comfort. With this sofa you can really sit back, relax and enjoy the soft gradients of luxurious layers while experiencing the comfort and strength of this unique design.

Brick

Inspired by the bond pattern of laying bricks, the Brick Sofa will form the foundation of your interior. While strong in its appearance, the extra layer of foam in the filling ensures that the sofa is easier to sink into and looks softer. Choose from four elements and arrange them in a structure of your liking. Slide the backrest seamlessly aCross* two parts to reveal the staggered brick pattern and back again to change its look. Available in all Studio HENK fabrics, including our latest sustainable offerings. Made in the Netherlands.
