COLU BASKET

ORGANIZING

Design:	Baptiste Vandaele, 2025
Duty Code:	63049900
Made in:	China
Construction:	Colu Basket is made of recycled polyethylene terephthalate (PET) felt, made from post-consumer plastic bottles, extruded into soft fibers and pressed into a felt material.
Maintenance:	The PET Felt surface may be cleansed with water. To remove stains, gently dab the area with a dry cloth while the material is still damp. Avoid rubbing the surface as it may harm the material or produce excessive pilling. Allow the surface to air-dry naturally. It is advisable to utilize professional cleaning products for cleansing the PET Felt surface. However, we recommend testing these cleaning agents on an inconspicuous area first. Regular vacuuming of the PET Felt surface is recommended to eliminate dust particles. To prevent damage to the material, it is advisable to keep the product away from heat sources such as heaters, fireplaces, and hair dryers.

China

Construction:

Crooked Candlestick is crafted from aluminum or brass using a sand-casting technique. The candlestick is then polished and the aluminum version painted, while the brass version is bronzed. Crooked comes in two variants for either one candle or two candles, both available in Yellow, Grey, Warm Grey or Bronze.

Maintenance:

Use dishwashing detergent, wipe with a soft cloth or sponge. Dry thoroughly with a dish towel. Please be aware that sharp objects can leave marks. To avoid potential damage to the product, the flame must be extinguished before the candle burns all the way down, and the candle wax melts into the candle holder.

Construction: The Limit Lounge Chair features a steel frame paired with a padded cover. The frame is available in either a powder-coated finish for indoor use or an electroplated and powder-coated finish for enhanced durability outdoors. The cover includes an inner layer made from a net-like weave of PVC-coated PET, providing UV stability and making it suitable for outdoor environments. The outer layer consists of wadding and upholstery, which is fitted securely onto the steel frame using a zipper. Optional connectors can be purchased, allowing multiple chairs to be linked together seamlessly, enabling flexible configurations of any length.

Maintenance: Clean gently with mild soap and a damp cloth. Avoid prolonged contact with water, and use the complimentary rain cover when not in use. In harsh weather such as snow, storms or large amounts of rain, we recommend storing the Limit Lounge Chair Outdoor inside.

NOTCH BED FRAME 160X200 CM
BEDS

Design: Simon Legald, 2023
Duty Code: 94035000
Made in: Latvia

Construction:
Notch Bed Frame is crafted from FSC™ certified (FSC- C163461) pine and pine from other controlled sources. The solid pine wood planks are joined together using a notching technique in which one plank can be inserted into another. Besides forming a durable construction, the notching technique also makes for a decorative detail on the corners of the bed. Notch Bed Frame comes in two sizes and is sold without a mattress or bed slats. We recommend either using a box mattress or a combination of a mattress and bed slats, with measurements that match the bed frame, or two single mattresses, each measuring half the width of the bed frame.

Maintenance:
Clean with a damp cloth.

ODD CANDLE HOLDER

Design: Normann Copenhagen, 2024
Duty Code: 7013990099
Made in: Turkey
Construction: Odd Candle Holder is a candle holder with an organic shape made from 100% solid, clear glass, featuring a distinctive irregular surface.
Maintenance: Not suitable for dishwasher use. Washing up by hand is recommended. Be careful when using sharp objects on the dish, as rough use of sharp knives, forks or other objects may lead to small scratches in the surface. To avoid potential damage to the product, the flame must be extinguished before the candle burns all the way down, and the candle wax melts into the candle holder.

GRANITE

Granite distinguishes itself by being resistant to scratches and heat. Each piece of granite is unique with natural variations in the pattern.

CARE

- For maintenance, use care products specially developed for granite or use a damp cloth wrung in a mix of water and mild soap or soap flakes. This will form a light protective film on the surface.

CLEANING

- We recommend cleaning with a damp cloth wrung in a mix of water and mild soap or soap flakes. Granite tolerates most cleaning products.

LACQUERED ABS

CLEANING

- Clean with soft damp cloth or nano-cloth.

When the water becomes room temperature, the foam must be applied all over the leather with a soft cloth. Only use the foam and avoid soaking the leather. When the leather is dry, polish it with a soft, dry cotton cloth.
